ABOUT US

Tripplearm India Private Limited is one of the fastest-growing and most admired infrastructure companies in India. It has expertise in executing large and complex urban and industrial infrastructure projects. The company is driven to deliver projects on time using world-class management techniques and has uncompromising standards.

VISION

To be a global leader by innovating, excelling and sustaining with our core values in new frontiers and attaining global benchmarks.

MISSION

We aim to deliver sustainable value to our stakeholders by fulfilling our commitment to our clients while strengthening and forging new ties. We endeavor to maintain and enhance consistent performance, work culture and standards.

CORE VALUES

Compliance to Safety

Conformance to Quality

Adherence to Schedule

Consistent Client Satisfaction

LEARDERSHIP

Tripplearm India Private Limited was born from one family's pure enthusiasm for Executing Innovative Projects that delivered business results. That genuine, hands-on devotion remains, and our team has grown.

MANAGEMENT

Our experienced management team are on the front line, ensuring every detail of your Projects or Commitment is aligned to perfection. They're your daily contact, who you can rely on to organize your high-performance team to deliver on-time and 'a service that implements specialized, project management methods to manage the design, construction, and the planning of a project, from its start to its end.

SERVICES

We are aware that change is a constant and every industry has to be adept to adopt. While you are in the way, you need a partner with technology expertise to support you in every step of the way. We believe we are that perfect partner who will engineer the future for you.

- Deep expertise across all engineering disciplines
- Full range and Combination of services offered
- All forms of Contract type serviced (Reimbursable, Open book, Lump sum)

Consulting - Engineering Design - Projects - Equipment & Services – Commissioning

CONSULTING

Site master planning

Feasibility studies helping to define the pipeline for clients

Concept design & project programming

Factory simulations & factory audits

Process technology & equipment evaluation

Pre-Bid Engineering

CONSULTING

ENGINEERING DESIGN

Basic engineering & detailed engineering

Integrated approach incl. building information modelling

Design reviews & (3D) constructability reviews

Value engineering & cost optimization

Package development for tendering & execution

PROJECT

Permitting, licensing &
environmental compliance Safety,
Health & Environment

Planning & scheduling

Commercial management &
procurement, supervision

Design management

Quality assurance (QA) & quality
control (QC)

EQUIPMENT & SERVICES

Self-performance: Fit-outs;
installation of mechanical &
electrical & Process systems
as well as process piping; tool
install & hook-up

Cleanroom products

Air handling units

Filter fan units

High-performance ventilation
ductwork

Air Handling
Units

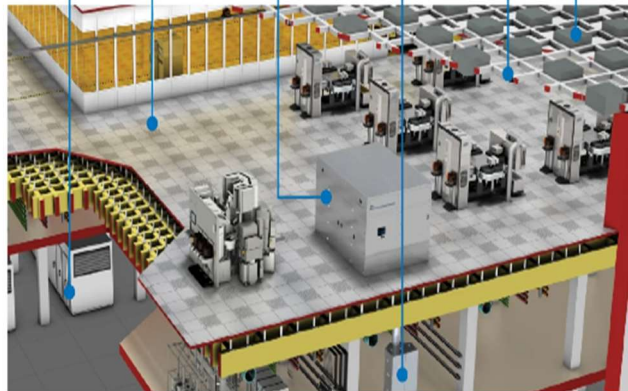

Modular Environmental
Control Chambers

Ceiling Grid
Systems

Raised
Floors

Precision
Climate Systems

Filter Fan Units

Commissioning, Qualification & Validation

Commissioning & start-up

Qualification & validation

As-built documentation

Optimization, upgrades & retrofits

High-End-Technologies

01 Air Temperature	±0,1 K	±0,005 K	±0,001 K
02 Magnetic Fields	500 nT	100 nT	10 nT
03 Water Temperature	±0,05 K	±0,001 K	±0,0005 K
04 Noise Insulation	<30 dB	<35 dB	<50 dB
05 Humidity	±5 % r.H.	±1 % r.H.	±0,1 % r.H.
06 Differential Pressure	±1,0 Pa	±0,8 Pa	±0,5 Pa
07 Humidity Reduction	-30°C	-40°C	-50°C
08 Air Quality (Particles)	ISO 5	ISO 3	ISO 1
09 Air Quality (Bacteria)	GMP C	GMP B	GMP A
10 AMC (Acids, Bases, Dopants)	2 ppb	0,5 ppb	0,1 ppb
11 VOC (Condensables)	20,0 ng	5,0 ng	1,0 ng
